

Morning Assembly Speech on 15 May, 2023

Joby : Good morning, principal, teachers and fellow students, I'm Joby.

Polly : I'm Polly. We are from Class IC. Today, we would like to share with you the 3Rs that are very important to our planet. The 3Rs stand for Reduce, Reuse and Recycle, and they are actions that we can all take to help protect our environment.

Joby : First, let's talk about the first R, Reduce. This means that we should try to use fewer resources and create less waste in our daily lives. For example, we can reduce the use of plastic bags by bringing our own reusable bags when we go shopping, or we can reduce water consumption by turning off the faucet when we brush our teeth.

Polly : We can also reduce the use of electricity by turning off the lights when we leave a room, or unplugging electronics when we're not using them. Remember, when we reduce, we help to conserve natural resources like water and energy and reduce the amount of waste we produce.

Joby : The second R is Reuse. This means that we should try to use things more than once, instead of throwing them away after a single use. For example, we can reuse a plastic bag to carry our clothes, or we can reuse the clothes that we don't need by donating them to charity. Therefore, when we reuse items, we

help to reduce the amount of waste that goes into landfills.

Polly : The third R is Recycle. This means that we should try to turn waste into new products. For example, we can recycle paper, plastic, glass and metal by putting them into the recycling bin instead of the trash bin. The materials are then collected, sorted and processed to become something new. When we recycle, we help to conserve natural resources, and cut down the amount of waste.

Joby : By practising the 3Rs, we can all make a difference in protecting our planet and creating a more sustainable future. So, let's all make an effort to reduce, reuse and recycle in our daily lives, and encourage others to do the same. Remember, every small action counts!

Polly : Thank you and let's work together to create a better world for ourselves and for future generations.
