時光飛逝，一眨眼就要踏入一個新的里程。回想起中六時，學校發放 DSE 預測成績，當時我的預測成績根本未達到入大學資格。深受打擊的我開始制定學習計劃，每晚臨睡前我都會用便利貼寫下明天需要溫習的課題，分配好各科溫習時間，再貼在平板上，確保自己能達成目標。同時，我亦會善用學校派發的試卷和溫習資源，每次核對試題後都會整理「錯題簿」，並盡量以自己的文字記錄，使自己複習時更易理解，避免再次犯錯。

在這漫長且艱巨的備戰過程，相信大家不免會有想放棄或迷失的時候。曾經的我總是在低谷時想：我發奮得比其他人遲，根本不可能追得上他們吧？還不如趁早放棄算了。可是，當我看到平板上的便利貼，想到自己當初立定的志向，想到師長們一直以來的支持，甚至願意利用自己私人時間幫助我們，提供有用的建議和回饋，令我們有所進步，我便會重拾信心，毅然前進。

有志者，事竟成。我始終相信一句話：「有心不怕遲」。希望各位師弟妹在最後的時光咬緊牙關，堅持下去。天道酬勤，祝願大家都能成功考上心儀學科。

在追逐理想大學生活的旅途中，DSE 無疑是一個重要的里程碑。每位同學都希望在考試中取得佳績。我認為，成功的關鍵在於採用正確的學習方法和技巧。我想與大家分享一些有效的學習策略，希望能幫助你們在 DSE 脫穎而出。

首先，考 DSE 並非孤軍作戰的遊戲。我建議同學組成學習小組，彼此交流、討論難題，分享學習心得。這樣不僅能增進對知識的理解，還能激勵彼此，共同進步。其次，善用學校提供的資源是備戰 DSE 的重要一環。學校會定期派發實體試卷和練習，建議同學按照實際考核時間計時完成，這樣可以幫助同學了解自己的做卷速度。完成後，務必檢討錯誤，並將其記錄於「錯題簿」，這樣就能避免重蹈覆轍。此外，善用網上資源也是個好方法。網上有許多不同科目和課題的重點筆記，有助同學溫習不熟悉的內容。

在大學選科方面，不同大學的校風和特色各有不同，因此建議同學積極參加大學的開放日，親自到訪各個校園，了解各科目的課程內容和未來發展，這將有助你做出更明智的選擇。

最後，我想對所有師弟妹們說：無論面對甚麼樣的挑戰，都不要放棄自己的夢想。每一次的努力都是在為未來鋪路，當面對困難時，請相信自己有能力克服它們。保持積極的心態，勇敢追求自己的理想，因為只要堅持不懈，就一定能看到成功的曙光。加油！

流光易逝，眨眼間我已完成文憑試，成為一名大學生，而距離你們文憑試的開考時間亦愈來愈近了。面對着這場在你們目前人生中最重要、最難的考試，中六的時光會過得格外地快，隨處可見的日期倒數時刻提醒着你文憑試正逐步逼近。作為一個剛剛結束文憑試的考生，我有些許建議。

首先，我建議大家要把握時間在開考前把不同科目過往的試題全都做一遍。當然，在做之前要盡量習好考核內容和熟讀重要的知識點。基本上大部分的科目都需要背書，而且在做完 past paper 後亦需要背誦答題的框架。因此背誦是習時的一大重點。

其次，在完成每一份 past paper 後需要用心批改並記錄自己不熟習的試題，分析錯誤的原因。大多的人都會在相近的題型犯錯，因此，在操卷的過程中找出自己的弱點，集中操練亦十分重要。

我相信在大家多年的求學生涯中應該已經找到了適合自己的學習方式，而如何保持動力，讓自己能將習計劃付諸實行倒是更為重要。每個人各有志向，學習對於個人的意義亦各有不同。在我們的成長路上所有人都告訴我們文憑試是決定我們人生的重要考試，似乎不論成功與否它都定義了你過往的努力。成王敗寇，旁人總是以結果為準。但放諸我們自己的人生中，卻並非如此，過程與結果同樣重要。在這人生唯一一次的文憑試中，你每分每吋的進步、突破與成長都值得銘記。因此，我希望你們能為這場考試奮鬥一次，不一定是為了成績，可以是為了成為一個更好的人，也可以是為了看到更廣闊的世界。願不論結果如何，他日回頭看去，你能發現自己努力的身影，擁有一段奮鬥的回憶。

Hello guys! At the time this article is posted, I think you will have all already finished your mock exam. If you're satisfied with your grade, congrats! But don't let your guard down; mark down any careless mistakes you've made in the exam and try to avoid them in the upcoming exams! But if, like me, you've received your grade and are now disappointed in yourself, this article can serve as a warning and a reminder.

The first and foremost criterion I want to cover is not "how you should study." Different people's studying habits can be varied. Therefore, just choose what studying style suits you the best. However, I would love to introduce my way of learning English if you're interested. It is a rather simple method that involves copying words and phrases into your notebook (or Goodnotes for easy access) and trying to input them into your writing practices. There is no shame in copying other people's words and phrases into your own essays. On top of that, just a small reminder: remember to take breaks in between studying sessions. I understand that DSE is around the corner, so taking breaks might be considered a waste of time. Despite that, studies have proved that letting your brain rest a bit after a study period can further increase your productivity, instead of feeling burnt out after a long session.

Moving on, let's talk about what the school can offer in terms of resources that can assist you with DSE. Other than the past papers and the "chicken essence book" you can borrow from the library, I do have to bring up one of the best decisions our school made during my time in Form 6, which is, of course, opening the floor of Form 6 to allow students to use their own classrooms to study till 7 p.m. I used to hate studying at school because of the limited choices of places I could go. And most of the time, the library would already be full by the time I finished the additional classes after school. But with the classroom being opened for Form 6 students to study in, I could stay in the classroom with my friends and focus, sometimes discussing with each other about various topics. Because of that, not only did my bond with those friends strengthen, but I also gained a sense of unity with my classmates.

With the mock exam result being sent back to you, you should briefly look up any program offered in university that catches your eye. Think about what career you would like to pursue in the future and select the related program. After choosing a program, set small goals and slowly improve yourself. There is no such thing as achieving your goal in the span of a night, but if you actually put effort into your studies, results will eventually appear, slowly but surely.

Whenever you're struggling with your studies, be sure to remember that you are never alone on this journey. Teachers, classmates - they're all going to fight alongside you. If you've made it this far into this article, huge thanks for your attention! I truly hope for the best for all the 2025 DSEers. Good luck!

Dear junior schoolmates,

Hope you are doing well. Time flies, and there is only one semester left before DSE exams. Are you feeling excited, nervous, or confused? As your kind senior schoolmate, I would like to do my best to share some experience in preparing for DSE and choosing your university or majors.

First of all, you are encouraged to do plenty of exercises to enhance your answering techniques and familiarize yourselves with the way the questions are set in the real exam. What's more, a revision timetable can be created. Listing the tasks that should be completed during the day can supervise your review progress and improve efficiency. You should review your weaknesses in a targeted manner based on your predicted scores and allocate time reasonably.

Secondly, there are resources provided by the school. On one hand, the school library has a collection of past papers for each subject of each year. It is good to borrow them for reference, such as to see the question-solving ideas or the scoring standards. You can also take a photocopy to do practice. On the other hand, there is some support for your oral exam. If you need a listener to give you feedback when doing group discussion practice, our foreign teachers in the English Corner are always welcome to help. Moreover, during the study leave period, English teachers will arrange many cross-class oral practice sessions. They will stay in different classrooms listening and giving you evaluations as well as practical suggestions. Thus, I encourage you to actively take part and make full use of these resources.

Thirdly, you may be confused about your university and course choices. Therefore, it is helpful to use the elimination method, which means you can exclude subjects that you are least interested in and those for which you do not meet the admission requirements to make your choice list clearer. Then, you can ask your trusted family members and teachers for advice. Their rich experience and foresight can point you in the right direction. Finally, listen to your inner voice as we live for ourselves, and we must be responsible for the decisions we make. You can consider it from the aspects of subject content, teaching resources, university environment, employment opportunities, future industry development trends, etc. I fully understand that sometimes it is difficult to cover everything because we cannot have our cake and eat it too. But I believe that you have the wisdom to make the right choice.

To sum up, although there may be moments of confusion and moments of wanting to give up, I hope that after them, you can always have the power to cheer up and turn all your frustrations into motivation to move forward. Try your best and leave no regrets. I wish you all the best on your journey toward your goals and a bright future.

6E 黃呈曦

教育大學

教育學士(榮譽)地理學系

Hello everyone ! I'm Chinue Wong from class 6E.

It is my pleasure to be invited to share some useful skills on how to prepare for your upcoming examinations.

DSE is not only examining your learning ability, but also examining your anti-stress ability, so I would like to share my experiences on these aspects.

Firstly, you have to go the extra mile in your studies. When I was studying for DSE, I always followed my daily routine to keep my learning state. I would read through all the notes or textbooks that will be taught on that day and note down the things that I don't understand. I would ask questions if the questions are not answered during the lesson, and I encourage you to do the same. After school, I would take a little break and then start revising by studying the flashcards and notes I made during the lessons. Also, spending some time practising the past papers is also beneficial for our studies. Please make good use of the notes and past papers given by our teachers .

Secondly, work-life balance is essential. The pressure of preparing for the exam is huge, but it will be a driving force if it is well-controlled. Every Week, I would reserve one day to take a good rest and relax which is a good way to refresh our mind.

The reason why I put that much effort into preparing for the exam is the dream I want to achieve. Being a Geography teacher is my dream, so all the programmes I put on my JUPAS list are about Geography. To ensure I get an offer, I put different choices in JUPAS with a wide range of admission scores. If you have any questions on how to arrange your choices, don't hesitate to ask your teachers - they are willing to help you!

Remember, DSE is not the end of your journey, and you have nothing to lose. Just fight for it!
