ENGLISH DEBATING TEAM

Congratulations!

LPSMC Senior English Debating Team Clinches First Term Final Victory

In the Hong Kong Secondary Schools English Debating Term 1 Final held on the 24th of January, LPSMC triumphed over Po Leung Kuk Wu Chung College on the motion "This house regrets the rise of cancel culture." LPSMC effectively argued against the unintended consequences of cancel culture, focusing on stifling debate and jumping on bandwagons of hate. Their opponents defended cancel culture's role in social accountability. One of the many highlights of the debate was Kelanna Wan from LPSMC, who clinched her first Best Speaker Award with a compelling and near flawless speech, contributing significantly to their victory. This debate showcased critical engagement with modern social issues among students. We are extremely proud of our debaters for all their dedication and ability to consistently deliver a high standard of performance.

Hello! I'm Kelanna from 5D. The Term Final was an unforgettable experience and a fantastic highlight of the season! I am incredibly proud of our collective efforts. Our teamwork and synergy have never been stronger, resulting in a remarkable victory and my recognition as best speaker. I am truly grateful for this opportunity and for the amazing team we have. I look forward to working even harder to refine my skills for future debates. Here's to continued success in the upcoming rounds!

Hi! I'm Audrey from class 3A. With a well-deserved victory in this year's Term Final, I am very proud of my team and especially thankful to my teammates, for they have helped me and led me on this debating journey. This year, we learnt from our mistakes and built an even stronger team bond. Debating not only improved our confidence, but more importantly our connection is stronger than ever. I will continue to work hard for this year's pursuit of a Grand Final place and continue refining my skills.

Hi! I'm Candy from class 5D. Reflecting on this season's Term Final, I appreciated the unique perspective offered by our adjudicator, whose comments were certainly thought-provoking. It was also intriguing to see the teamwork skills put into place, and to recognise that there is not a fixed style for this debating competition as different styles resonate with different adjudicators - in this case, a uniform approach was favoured. Hence, huge congratulations to the best speaker.
